EDUCATION

Vignan Institute of Information and Technology

B.Tech in Information Technology

Duvvada, VSP

Apr. 2022 – May 2026

Narayana Junior College

Intermediate

Bhanugudi, KKD

Apr. 2020 – May 2022

Aditya Public School

Schooling

Bhanugudi, KKD

Apr. 2010 – May 2020

EXPERIENCE

Internship in HMI Solutions - Python Full Stack Development

May 2024

1-month Python full stack development experience at HMI Solutions using Flask.

Internship in Codtech Solutions - MERN stack development

June 2025

1-month MERN stack development experience at Codtech Solutions using JS frameworks and MongoDB.

PROJECTS

Pain Diagnoser | *React.js, Flask (Python), MongoDB, Three.js*

July 2025

- Developed a 3D AI-powered web app to diagnose pain based on user interaction with a realistic human model.
- Integrated Three.js to render and detect clicks on a 3D human body, mapping pain zones precisely.
- Built a conversational AI backend using Flask that asks follow-up questions and provides diagnosis.
- Improved UX with responsive layout, hover effects, styled chat interface, and keyboard interaction support (Enter to send).
- Deployed -<https://pain-diagnoser-frontend.vercel.app/>

Certy | *React js , Node js , Express js , MongoDB , Cloudinary*

Aug 2025

- Developed a full-stack web app for uploading and managing digital certificates for users.
- Implemented backend APIs with Node.js and Express.js to handle certificate upload, storage, and retrieval.
- Integrated MongoDB for storing user details and certificate metadata securely and used Cloudinary to store and serve certificate images.
- Built responsive React components for certificate upload, viewing, and public profile display.
- Deployed- <https://certy-frontend-rho.vercel.app/login>.
- My profile-https://certy-frontend-rho.vercel.app/u/prasanth_leo77

Medi Locator | *React js , Express js , Node js , MongoDB*

March 2025

- Built a full-stack web application to help users locate pharmacies by medicine name and area with real-time suggestions.
- Implemented user authentication using JWT for secure login and signup functionality.
- Developed RESTful APIs with Express.js and Node.js to serve pharmacy, medicine, emergency hospital, and medicine information data from MongoDB.
- Enhanced UI/UX with React.js: dynamic search suggestions, intuitive forms, and navigation across features like About Medicine and Emergency Services.
- Deployed - <https://medi-locator-frontend.vercel.app/>

Movie Bro | *React js , Express js , Node js , MongoDB*

Dec 2024

- Developed a full-stack website that can recommend the movies to you according to your genre.
- Mostly worked on MongoDB to create and handle databases and collections.
- Applied good and responsive css for the interface.
- Created the user custom genres like action,comedy,history, movie names and languages.
- Deployed-<https://moviebro-frontend.vercel.app/>

ACHIEVEMENTS

Achieved CAD (Certified Application Developer) Global Certification by ServiceNow	Aug 2025
<i>Gained practical experience in ServiceNow application design, development, scripting, and custom workflows.</i>	
Achieved CSA (Certified System Administrator) Global Certification by ServiceNow	June 2025
<i>Gained practical experience in ServiceNow administration, configuration, and ITSM workflows.</i>	
Solved 150+ Problems on LeetCode	July 2025
<i>Improved DSA skills by solving problems in leetcode on various data structures and algorithms</i>	
Achieved 3-Star Rating on CodeChef	Dec 2024
<i>Achieved a peak rating of 1700+ , showcasing skills in competitive programming.</i>	
Completed Google Data Analytics Certificate on Coursera	Oct 2024
<i>Completed 8 modules covering SQL, R, Python (Pandas), data visualization, and business insights.</i>	

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, R.
Frameworks and Runtime: React js, Express js, Node js, Flask.
Developer Tools: Git, VS Code, MySQL Workbench, Vercel, Render, MongoDB Compass, ServiceNow.
Libraries: Pandas, Matplotlib, Three.js, dplyr, Mongoose.
